

**SEPA**  
**DETERMINATION OF NON-SIGNIFICANCE**

**Description of Proposal:**

The Washington Corrections Center (WCC) is constructing a reclaimed water system to mitigate potable water usage. The proposed project includes connecting reclaimed water mains currently located adjacent to Washington Corrections Center (WCC) to several locations within WCC and a 250,000 gallon storage reservoir and water booster station. This includes trenching and installing new reclaimed water mains, services, interior plumbing, and associated connections.

**Proponent:** Washington State Department of Corrections

**Location of Proposal, including street address, if any:**

*Washington Corrections Center  
2321 West Dayton Airport Road  
Shelton, WA 98584-0974*

The project site is located across the entire campus including areas inside and outside the perimeter fence. No work will be completed off WCC property.

**Lead Agency:** WASHINGTON STATE DEPARTMENT OF CORRECTIONS.

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.020(2)(c). This decision was made after review of a complete environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for the Determination of Non-Significance (DNS).
- This DNS is issued under 197-11-340(2). Comments must be received by 5:00 p.m., August 31, 2020.
