DOC Mission and Vision

DOC Mission: To Improve Public Safety by Positively Changing Lives

DOC Vision: Working Together for Safe Communities

- Work Release Purpose:
 - Work release facilities serve as a bridge between life in prison and life in the community. Incarcerated individuals who complete the work release program are more likely to be successful in maintaining employment, stable housing, and in paying legal financial obligations. Research conducted by the Washington State Institute for Public Policy indicates that work release programs not only reduce recidivism, but that they also have a positive cost/benefit impact for taxpayers but also the communities where they are located.

Work Release Program

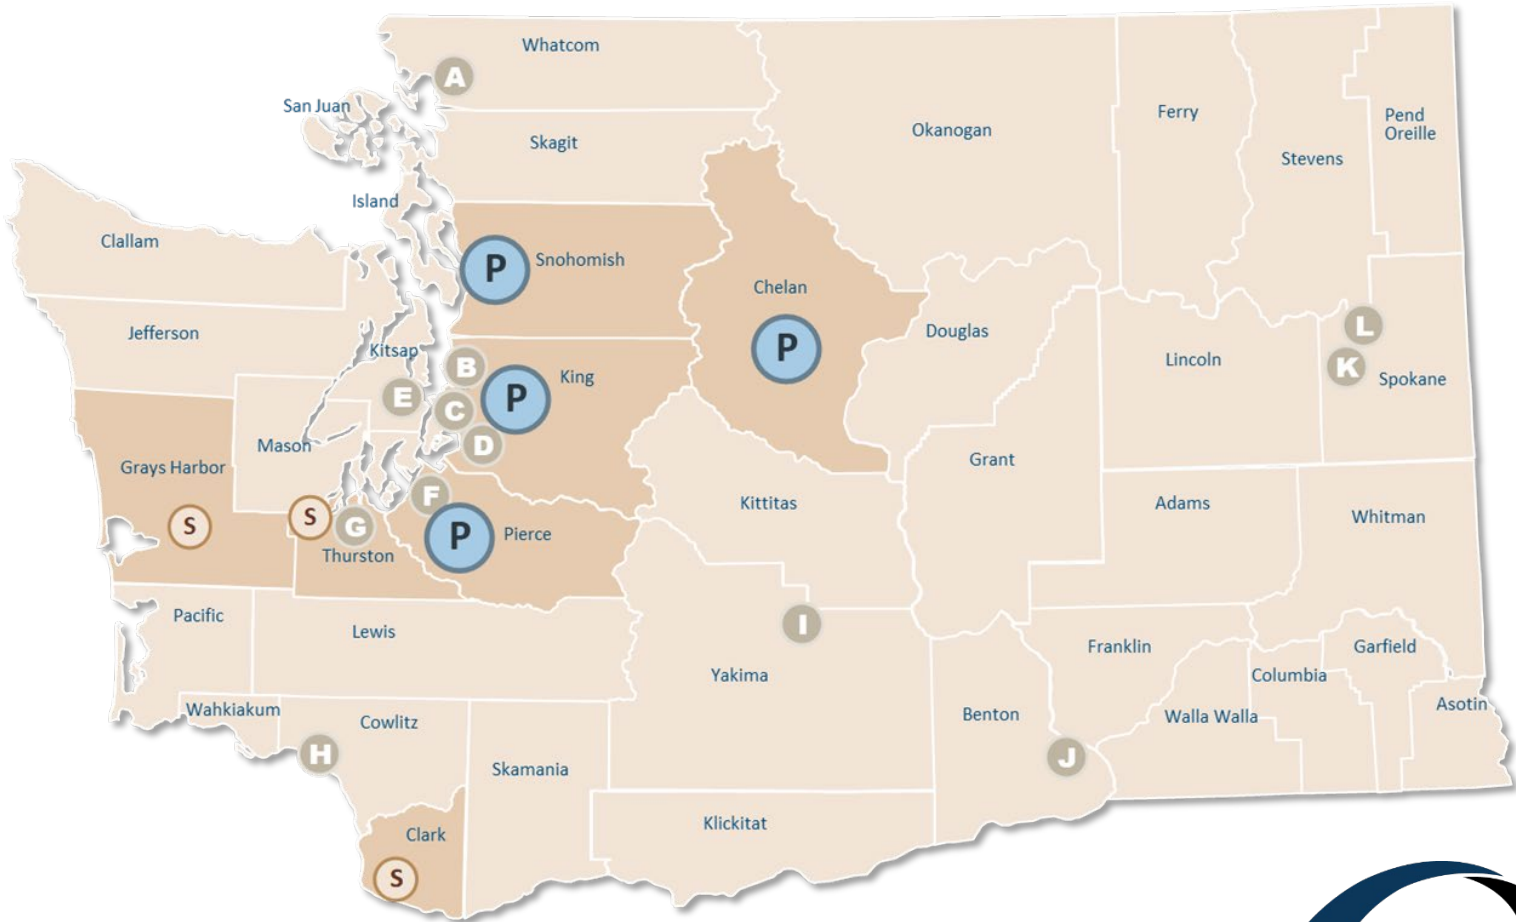

- Program created by the legislature in 1967
- Up to last 12 months of total confinement time
- Function as reentry centers; community-based work, school, treatment required
- 12 existing facilities across the state
- Most work releases house both males and females
- Current statewide capacity 782 (waitlist +/-1300)
