---

**Date:** December 31, 2020  
**To:** CRCC - Incarcerated Individuals  
**From:** Incident Command Post   
**Subject:** CRCC COVID-19 Status Update

Below is an update of the current status of Coyote Ridge Corrections Center (CRCC). We thank you for your continued understanding as we continue to work through this outbreak and mitigate the spread of COVID-19.

Our priority is to ensure the health and safety of all incarcerated individuals and staff at CRCC with the goal of mitigating the spread of the virus. It is important that all incarcerated individuals follow the established cohort schedule. Failure to follow the schedule increases the risk of spreading the virus and extends the amount of time the facility remains unable to return services and operations with lower restrictions.

## Updates:

### CRCC-MSU

- CRCC-MSU has seen a slow new positive COVID-19 cases. No individuals are currently housed in alternative housing and Camas unit has been released from quarantine status. While we continue to see a decline in cases, it is still crucial that our population and staff comply with the COVID-19 protocols to continue to slow the spread. It is important that everyone practice social distancing by remaining six feet from others, wash your hands frequently, and wear a surgical mask any time you:
  - Are outside your room; or
  - Have your room door open; and/or
  - Leave your assigned bunk if you live in an open-bay type area, to leaving your bunk to walk to the bathroom.
- If you or your cellmate/cohort begin showing signs or symptoms of COVID-19, please notify staff immediately. Staff are encouraged to report sick incarcerated individuals to medical staff who will assess symptoms. Every moment that staff are not made aware of symptomatic individuals allows the virus to spread to others which leads to more units being impacted.

### CRCC - MSC

- C unit A-pod has been released from quarantine status.
- MSC yard will be closed on January 5, 2021 to replace lights.

# Coyote Ridge Corrections Center

## CRCC – Mainline

- At the dinner meal, Friday 01/01/21, breakfast boats will need to be picked up for the Saturday morning breakfast.
- Due to recent complaints on the discoloration of the Chicken Bologna luncheon meat, Correctional Industries has developed a plan to supplement the luncheon meat and cheese with a full substitute sandwich. We have approximately 7.5 lunch cycles worth of the luncheon meat that will be incrementally distributed over a several week time period. The extra sandwich supplemented will only be distributed with one particular sandwich tray (Item #11954 chicken bologna tray lunch). As was done in the past, the lunch tray will not be thawed for 24 hours prior to distribution.
- As communicated in the past, the chicken bologna luncheon meat is a wholesome meat. There are no health concerns with the meat. The issue was caused by plastic seals allowing air to affect the overall appearance. Anyone receiving the luncheon meat tray is free to either discard or consume the meat and cheese.
