February 3, 2021

TO: All Staff  
FROM: Dan Van Ogle, Incident Commander  
SCCC Incident Command Post  
Subject: COVID-19 Update

Starting today, February 3, 2021 H1 A and B-pod are considered COVID-19 cleared status. This means that all the incarcerated individuals housed in that pod have recovered from COVID-19 or have never received a positive COVID-19 test result and have been removed from quarantine status.

There have not been any new positive incarcerated individuals moved into H1 since early January. We will no longer house COVID-19 positive individuals in H1. We will continue to use the gym and visit room as alternate housing areas for COVID-19 positive individuals.

As a result, the incarcerated in H1 A and B-pod will once again be allowed access to outside recreation, the dayroom and their amenities on a limited capacity in addition to the following COVID-19 clear pods in the facility.

- G A Pod
- G B Pod
- H2 A Pod
- H2 B Pod
- H3 B Pod
- H5 A Pod
- H5 B Pod
- H6 B Pod

Everyone is still required to adhere to social distancing standards, which includes a two (2) person limit at tables, wear approved face coverings, and wash their hands.

Thank you for your continued dedication and hard work. Please continue to limit your time in close contact and keep your distance from others, wear [proper PPE](#) and clean the high touch areas in your offices and work areas. If you have any questions, please refer them to the Shift Commander.
