February 8, 2021

TO: All SCCC Incarcerated Individuals
FROM: Dan Van Ogle, ^{DVO} Incident Commander
SCCC Incident Command Post
Subject: Cohort by Tiers and Movements out of Units

On February 16, 2021 we will begin to transition to more movements outside the units. However, to accomplish this and still maintain social distancing we will also begin cohorting by tiers in each living unit that is considered COVID-19 clear.

The dayrooms will be divided into a morning and evening schedules. The bottom and top tiers of each pod will be divided between morning and evening schedules and this will be the time each tier will have access to the dayrooms phones, showers, and J Pay. Bathroom use will still be allowed throughout the day.

Movement schedules will be developed that allows each tier to go to recreation yards, out to pill line, insulin line, and finally to the dining hall to pick up a "grab and go" meal to be returned to the unit and eaten inside your assigned cell.

This is the first step in the transition to a new normal and allowing additional movements to programs and medical appointments if we continue to mitigate the spread of COVID-19.

All incarcerated individuals are reminded that you are required to wear a surgical mask, sit two (2) per table in the dayrooms, and maintain a six (6) foot social distance to mitigate the transmission of COVID-19.

Thank you for your cooperation
