February 26, 2021

TO: All Staff 
FROM: Dan Van Ogle, Incident Commander
SCCC Incident Command Post
Subject: COVID-19 Weekly Update

SCCC continues to move toward clearing all living units from COVID-19. We are still in outbreak status, but the number of active cases continues to reduce each day. We are still utilizing the alternate housing area in the gym for positive cases, however the number in that area is much smaller and we anticipate the area will soon be closed. At that point we would utilize G Unit A-Tier and F Unit South for Medical Isolation and Quarantine areas indefinitely.

The movement schedule by tiers for grab and go mainline, pill line, and insulin line will continue until further notice. Movements to yards will continue by pods. Medical appointments, and grievance and hearings callouts will continue by unit to the extent possible.

Plans are being made to house kitchen, engineering, and Correctional Industries workers in certain living units to mitigate any future outbreaks of COVID-19 from spreading too quickly.

We appreciate your efforts day in and day out in managing this pandemic at Stafford Creek.

Thank you so much for all you do.
