

STATE OF WASHINGTON  
**DEPARTMENT OF CORRECTIONS**  
P.O. Box 41100 • Olympia, Washington 98504-1100

May 7, 2021

**TO:** All CRCC Incarcerated Individuals  
**FROM:**  Andrew Sawyer, Incident Commander  
**SUBJECT:** CRCC Limited Area Outbreak – Sage East and West Units

On May 3, 2021, Coyote Ridge Corrections Center (CRCC) confirmed that 1 incarcerated individual in Sage East had tested positive and 1 individual in Sage West had tested positive. Subsequently, on May 6, 2021, 2 incarcerated individuals in Sage West, also tested positive. As a result of those positive test results, and per Department protocol, CRCC Sage Unit East and West is considered to be on Limited Area Outbreak status.

On May 5, 2021, the Department announced an update to the COVID-19 protocols and shared the definition of a Limited Area Outbreak. Facilities that experience an outbreak, that is very limited to one area, may be placed on a Limited Area Outbreak. Meaning only the impacted area would be on outbreak status, and the rest of the facility would remain unaffected.

In a consultation with Headquarters Clinical Leadership and Prisons Operations Leadership, the determination was made that Sage Unit East and West, would be placed on a Limited Area Outbreak.

While Sage Unit East and West will remain quarantined and unable to participate in visitation, the rest of the facility will continue normal operations.

It is imperative to make sure you continue to wear your appropriate Personal Protective Equipment (PPE), as well as social distancing at all times. Please encourage and model the same behavior that we expect from our incarcerated population.

Similarly, it is vital that we continue to follow the Centers for Disease Control (CDC) guidelines, ensuring to follow the six (6) foot social distancing rule, washing your hands, and keeping areas of the institution sanitized. Staff must remain diligent in wearing your masks at all times, as your safety, as well as your family's, are a priority.

Corrections is committed to everyone's safety. We will continue to communicate with you as we progress through this pandemic.
