Subject: Important Information - J&J vaccine shortage

Importance: High

Sent on behalf of the COVID-19 Vaccine Team

Dear Colleagues,

We wanted to again mention, in case you were unaware, the nation is experiencing a shortage of J&J doses and demand is higher than ever. Given important upcoming mandatory vaccine deadlines please be aware that there is a limited supply of J&J available, choosing another vaccine may be the best choice.

To be fully vaccinated by the **October 18, 2021 deadline**, you must have received your **first dose of Moderna by September 6** and **second dose of Moderna by October 4** or **first dose of Pfizer by September 13** and **second dose of Pfizer by October 4**.

Washington State is working closely with the federal government to try and acquire more doses. In the meantime, please be aware of these upcoming vaccine deadlines when choosing your vaccine manufacturer.

Thank you so much!
