October 7, 2021

TO: All OCC Staff

FROM: Jason Bennett, S

Subject: **Weekly COVID-19 Update**

I am pleased to announce Headquarters EOC has granted permission to remove Ozette Unit from Limited Area Outbreak status. Testing for Incarcerated Individuals affected have returned with negative results.

Visitation for Ozette Unit has returned to normal. Notification was will be made to visitors and posted to the public website.

The Secured Housing Unit quarantine area will now be unoccupied.

As a reminder to staff, if you identify an individual with symptoms, notify medical and the Shift Commander immediately.

Even if you have received the vaccination and/or had COVID-19 greater than 90 days ago, you are required to participate in weekly PCR testing. Only staff members who have tested positive for COVID-19 less than 90 days ago are excluded from testing.

Thank you to all staff for your commitment to working through this and helping to keep our facility safe. It has been a rough few weeks and I greatly appreciate the dedication and determination you all have exhibited in efforts to combat the spread during the Limited Area Outbreak.
