SUBJECT: Reduced Commissary Spending Limits Update

Due to the COVID-19 outbreak at Monroe Correctional Complex's Twin River Units and impacts to available staffing resources, temporary commissary spending limits were imposed and went into effect on December 10, 2021. Beginning on December 22, 2021, commissary spending limits will revert back to prior levels.

There are now a sufficient number of incarcerated workers to keep up with commissary demand. The temporary reduction of spending limits has allowed commissary operations to keep up with the demand and fulfill orders statewide.

Thank you for your patience during this time.
