March 2, 2022

TO: All SCCC Staff  
All SCCCC Incarcerated Individuals

FROM: Rob Schreiber, Incident Commander  
SCCC Incident Command Post

Subject: SCCC Limited Area Outbreak – Status Change

Effective immediately, Stafford Creek Corrections Center (SCCC) is no longer on Limited Area Outbreak status.

SCCC and its staff continue to excel in this fight against the COVID-19 Pandemic. Your efforts and patience with the everchanging dynamics surrounding operations here at SCCC are noticed and appreciated. As a facility we have continued to be a model of strategies and process for other institutions to follow and attempt to replicate as Corrections battles COVID-19. SCCC as a Facility will continue to enforce the enhanced safety protocols.

As we battled the transmission of COVID-19 and the variants this time around we were able to limit the incarcerated individual population infection rate to 17 percent. This low percentage could not have been achieved without each staff member at this facility taking an active role in the fight. As we move forward to a new normal, several areas will return to prior outbreak processes and procedures. All movements will remain cohorted.

✚ Cohort A (H2, H3, and H4)

✚ Cohort B (G Unit, H1, H5 and H6)

- Correctional Industries
- Engineering/Maintenance
- Health Services
- Programing – Education, Law Library, Religious Services, Skill Building, CD and Employment
- Resolution/Hearings
