

Washington State Penitentiary

Superintendent's Office

DATE: March 2, 2022
TO: All WSP Incarcerated Individuals
FROM: Assoc. Supt. Steve Barker, Incident Commander
SUBJECT: WSP II Weekly Facility Update 03/02/2022

The Washington State Penitentiary is still on what is known as Facility-Wide Cluster status, twice weekly testing for staff members will continue until we can achieve 14 days with no new positives, and we must also continue to test some of the population at least once per week.

As more areas come off Limited Area Outbreak, we want to thank you for your diligence in following proper PPE usage and for your patience with testing and medical staff.

As promised, we have provided units with more information on the protocols provided for congregate living areas by the Center for Disease Control (CDC). This is a rather lengthy read, so if it is something you are interested in viewing, please let unit staff know, it will also be posted with other unit correspondence for population view.

Facility locations under Limited Area Outbreak Status:

- Delta Unit
- Echo Unit
- Fox Unit
- IMU South
- Victor Unit
- William Unit

Current numbers as of March 1, 2022:

- Current positive cases among incarcerated (in the last 30 days) – 363
- Number of confirmed cases of incarcerated to date – 2,096
- Number of confirmed staff cases to date – 677
