

STATE OF WASHINGTON
DEPARTMENT OF CORRECTIONS
P.O. Box 41100 • Olympia, Washington 98504-1100

3/02/2022

TO: Resident Population

FROM: CUS, Richer, Jason

SUBJECT: Larch Corrections Center COVID-19 Facility Wide Outbreak

On May 5, 2021, the Department announced an update to the COVID-19 protocols and shared the definition of a Facility Wide Outbreak. Facilities that experience multiple Limited Area Outbreaks are experiencing a Facility Wide Outbreak. A Limited Area Outbreak, is an outbreak, that is very limited to one area. Meaning only the impacted area would be on outbreak status.

Larch Corrections Center currently has 27 confirmed cases of COVID-19 in the incarcerated population from the living unit. As a result of these COVID-19 positive cases, Larch Corrections Center continues to test the entire population.

Following the [Prisons Division Cluster and Outbreak Checklist](#) due to the positive COVID-19 tests and the associated quarantined cases that go with them, we have remained at a point in time in which we will have to continue to take additional steps to limit the potential exposure of COVID-19 to the incarcerated population.

Larch Corrections Center is on Restricted Movement status due to COVID-19. This continues to impact the incarcerated population's ability to attend regularly scheduled programs, call-outs, and services. As an extra precaution, all individuals who test positive will be re-located temporarily to Elkhorn Unit to mitigate any additional exposures and or cases of COVID-19. Additional information will continue to be shared and sent out to the residents.

These steps are meant to minimize the short and long-term impact that our response will have on our incarcerated population. As we move forward in the coming days you can expect to see continued cohorting in the tiers, serial testing of our incarcerated population, and an increased awareness to Personal Protective Equipment (PPE) protocols, cleaning, sanitizing, and disinfecting, and social distancing. It is our hope by taking these measures that we can cut down on the amount of potential exposures and reduce the amount of time it will take to get back to a new normal with our operations.

I ask each and every one of you to be committed to following these standards so we can move past these restrictions as quickly as possible. By working together, I know that we can get past this difficult time and get to a place in which we can all have some relief from the restrictions that this pandemic has brought upon us all.

Thank you all for your cooperation and patience through this difficult time.

"Working Together for SAFER Communities"
