A. To the Table Case – Members had a full Board discussion of this ISRB case.

PRE-84

- Gregory Anspaugh
- DOC #247032
- Purpose: Full Board Discussion
- Date: February 10, 2025
- List of Documents Reviewed
 - ISRB File
- An updated prosecutor recommendation was received. They are not in support of Mr. Anspaugh's release.

- Gregory Anspaugh was seen for a .100 hearing on January 28, 2025 at the Coyote Ridge Corrections Center.

- **Summary Discussion**
Jill Getty presented the case to the full Board.

- Gregory Anspaugh is under the jurisdiction of the Board for their conviction of Attempted Murder in the First Degree in King County Cause 73012.

While on escape from work release, Mr. Anspaugh met a female in a tavern and went back to her apartment for a drink. After the female offered to take Mr. Anspaugh home, he attacked the female, raped her and then stabbed

her. After he left the residence, she was able to call for help. He was 27 years of age at the time of the crime and is currently 70 years of age.

Previous Criminal History:

Mr. Anspaugh's criminal activity started at the age of 21 years old. His criminal behavior included Assault in the Second Degree, Sexual Harassment and Escape.

Risk assessments show him to be a low moderate risk to re-offend.

Mr. Anspaugh's last serious infraction was for fighting in 2022.

Mr. Anspaugh has participated in sex offense treatment as well as T4C.

Mr. Anspaugh would like to release to his daughter's residence.

- **Decision:**

The panel recommends Mr. Anspaugh not be released and that 36 months be added to his minimum term.

- **Reasons:**

- Mr. Anspaugh does continue to struggle with managing his behavior when confronted with situations in which he disagrees with DOC staff, to include a recent interaction with the SOTAP staff during a screening for the program.
- Following his last hearing, the Board asked Mr. Anspaugh to participate in programming to his transparency related to his risk related behavior/thinking to include his difficulty in solving problems. He has completed the T4C program but has yet to complete the current SOTAP which would provide him with insight and skills to contribute to being a fully rehabilitated and fit subject for release.
- Mr. Anspaugh scores high risk on the Stable 2007 (+15) and scores high on the PCL-R (+30).
- He has multiple sex offense convictions, with different victims, and a sexual re-offense after a prior treatment participation.
- Mr. Anspaugh has prior failures on supervision which is indicative of future failure in the absence of programming that includes skill development.
- As indicated in his most recent psychological evaluation in October of 2024, risk assessment tools estimated that Mr. Anspaugh's risk for future violence is moderate-high based on the Violence Risk Appraisal Guide-Revised (VRAG-R) and high based on the presence of

psychopathic traits as measured by the Psychopathy Checklist-Revised 2nd Edition (PCL-R).

- Also, from his most recent psychological evaluation the evaluator opined “in my opinion, Mr. Anspaugh had not worked towards making himself a reasonable candidate for consideration for release to a less restrictive setting. If Mr. Anspaugh were to be considered for a release to the community, it would be imperative that he be monitored via a highly structured supervision plan.”
- **Recommendations:**
 - Sex Offense Treatment and Assessment Program (SOTAP), if eligible. Mr. Anspaugh indicated in today’s hearing that he is willing to participate in the DOC SOTAP program.
 - Other Programs, if eligible. Such as: Thinking for a Change, Redemption, Bridges to Life, Alternatives to Violence, Domestic Violence Treatment
 - Remain infraction free and have positive interactions with staff
 - Participate in next Hearing
 - Develop a release plan/community support
 - Improve problem solving skills.
- **Next Action:**
 - Schedule a .100 Hearing approximately 120 days prior to PERD.
- **Vote:**
