Jeff Patnode

Elyse Balmert – Not Present

Jill Getty

Corey McNally, Executive Director

Rebecca Torrence, Executive Assistant

A. To the Table Case – Members had a full Board discussion of this ISRB case.

PRE-84

- PAREJO, Manuel
- DOC #690773
- Purpose: Full Board Discussion
- Date: May 20, 2024
- List of Documents Reviewed
 - ISRB File
- An updated prosecutor recommendation was received.

- Manuel Parejo was seen for a .100 hearing on April 30, 2024, at the Monroe Correctional Complex.

- **Summary Discussion**
Jill Getty presented the case to the full Board.

- Manuel Parejo is under the jurisdiction of the Board for their conviction of Rape in the First Degree and Kidnapping in the First Degree in King County Cause 84565.

In 1978, Mr. Parejo was picked up by a husband and wife while hitchhiking. Mr. Parejo tied up the husband and rape the wife. He was 28 years of age at the time of the crime and is currently 74 years of age.

Previous Criminal History:

Mr. Parejo has an extensive criminal history which began as a juvenile. His history also includes several escapes from juvenile facilities as well as adult facilities. His criminal history is that of a sexual nature.

Risk assessments show him to be a high risk to re-offend.

Mr. Parejo has no noted serious infractions since his being revoked in July 2021.

Mr. Parejo has completed programming while incarcerated, which includes substance abuse, sex offense treatment, and mental health.

Mr. Parejo would like to release and live with his sister.

- **Decision:**

The panel recommends that Mr. Parejo not be released and to add 60 months to his Minimum Term.

- **Reasons:**

*Please refer to Decisions and Reasons document for full Reasons listed.

- Mr. Parejo has a long history of sexual preoccupation, antisociality, and his criminal sanctions have provided little deterrent effect. His poor problem solving continues to be evident and his age provides little mitigation.
- Prior failures on Supervision with risk related behaviors.
- High Risk Static-99R, 7-points Level 3 for community notification
- Mr. Parejo is a high-risk sex offender. He is assessed by the End of Sentence Review Committee (ESRC) as a level 3 for community notification (highest risk level) and has an extensive history of rape. He has also had a previous Forensic Psychological Evaluation (2011 FPE) which indicated he likely meets criteria for Civil Commitment under RCW 71.09.
- Mr. Parejo has prior failures on supervision which is indicative of future failure in the absence of programming that includes skill development.

- His violation behavior had aspects of his prior rapes, to include picking up a hitchhiker who was clearly in a compromised state and vulnerable. It is unclear as to what level of physical contact occurred between Mr. Parejo and the female hitch hiker, or her ability to give consent. He previously admitted to bathing the individual, hugging, and kissing her on the forehead, and sleeping in the same bed, though he denied any sexual contact.
- At completion of his recent SOTAP participation he continued to be assessed as High Need in the following: Capacity for Relationship Stability.
- Mr. Parejo placed himself in a very high-risk situation while on Supervision to potentially have sexual contact and or commit sexual assault against a vulnerable adult female. His violation behavior included multiple high risks identified in his 1998 SOTAP treatment summary.
- Supervision conditions were not sufficient to prevent him from engaging in new risk related behavior when he was last in the community, and he does not appear to have gained any new skills or insights since that time.
- Mr. Parejo minimizes the high-risk nature of his violations. He also has changed his description of his behaviors from previous testimony.
- Mr. Parejo is a Level Three sex offender with previous failures on community supervision. He was last in the community approximately eight months before being revoked for risk related behavior. Supervision conditions were not sufficient to prevent Mr. Parejo from engaging in new risk related behavior when he was last in the community, and he does not appear to have gained any new skills or insights since that time.
- Although Mr. Parejo did not meet the criteria as an SVP, he was referred by End of Sentence Review Committee (ESRC) to the Sexually Violent Predator (SVP) Subcommittee for a second time. In addition, the King

County Prosecutor's Office looked into the potential Recent Overt Act (ROA) incident and getting an updated 71.09 Forensic Psychological Evaluation (FPE) done. Only a small percentage of the highest risk sex offenders are referred to the ESRC SVP Subcommittee, for a Recent Over Act, and for consideration of an FPE, indicative of the risk Mr. Parejo presents.

- **Recommendations:**
 - Sex Offense Treatment and Assessment Program (SOTAP) Specialty Groups, if eligible
 - Sober Support Groups
 - Other Programs, if eligible. Such as: Thinking for a Change, Redemption, Bridges to Life, Alternatives to Violence, Domestic Violence Treatment
 - Remain infraction free and have positive interactions with staff
 - Participate in next Hearing
 - Develop a release plan/community support

- **Next Action:**
 - Schedule a .100 Hearing approximately 120 days prior to PERD.

- **Vote:**

Jeff Patnode	Agree with recommendation
Kecia Rongen	Agree with recommendation
Lori Ramsdell-Gilkey	Agree with recommendation
Elyse Balmert	Not Present
Jill Getty	Agree with recommendation
