A. To the Table Case – Members had a full Board discussion of this ISRB case.

PAR (PRE-84 Cases)
• Edward Gilligan
• DOC #288541
• Purpose: Full Board Discussion
• Date: August 23, 2021
• List of Documents Reviewed
  o ISRB File
  o A prosecutor recommendation was received is 2017 for no release.

• Summary Discussion
  Mrs. Ramsdell-Gilkey presented this case.

  Mr. Gilligan was seen for a .100 Hearing at the Monroe Correctional Complex – Twin Rivers Unit on August 3, 2021.

  Risk assessment scores rate him as a moderate to moderate-high risk to re-offend. Mr. Gilligan’s age and poor health are protective factors that reduce his risk.

  Mr. Gilligan is under the Board’s jurisdiction in Spokane County Cause #84-1-00375-9 for Kidnapping in the First Degree. He was originally given a suspended sentence and committed as a sexual psychopath to Eastern State

Hospital. His sentence was revoked when Eastern State Hospital staff determined that after three years, Mr. Gilligan could no longer benefit from treatment.

According to file materials, Mr. Gilligan drove up to an unknown 8-year-old female who was walking from her father’s apartment and her nearby home. He grabbed her and threw her into his vehicle, drove to a remote location, sexually assaulted her, and left her at the scene. Mr. Gilligan was 32 years old at the time of this crime and is currently 69 years of age.

Prior to this crime, Mr. Gilligan committed five different sexual assaults in California and Oregon. His victims were both minor and adult females.

Mr. Gilligan has committed one infraction during his incarceration that occurred in 2004.

Mr. Gilligan did complete the Sex Offender Treatment and Assessment Program (SOTAP) and aftercare. He has positive behavior within the prison and shows respect for authority.

Mr. Gilligan would like to release to a transitional house.

- **Decision:**
  - The panel recommends Mr. Gilligan be found parolable.

- **Reasons:**
  - Has completed risk related programming as recommended to include the Sex Offender Treatment and Assessment Program (SOTAP) as well as Substance Abuse treatment.
  - Has demonstrated positive prison behavior, receiving only 1 serious infraction during his entire period of incarceration.
  - He will be required to complete the SOTAP aftercare in the community and encouraged to use this group for support as well.
  - Previously completed additional programming to include Victim Awareness and Alternatives to Violence.
  - He will need to register with local law enforcement due to the Kidnap conviction.

- **Recommendation:**
  - The panel recommends that Mr. Gilligan be found parolable. Gilligan should release to a structured and supportive living environment. A transitional type residence where there is an onsite housing manager present and with a history of cooperation with the DOC is imperative. Mr. Gilligan needs close supervision to ensure he abides by his
requirements and restrictions, particularly his restriction against ever being alone in the presence of a minor. He should be restricted from owning or even driving a private vehicle throughout his period of supervision due to the nature of his criminal history.

- **Next Action** – Submit Offender Release Plan (ORP).

- **Vote:**
