### Program Overview

The Reentry Division partners with community organizations to provide reentry programs and services that help individuals successfully transition back into their communities. Through partnerships, the department funds programs that offer a range of support, including:

- ✚ Essential Services: Employment, transportation, and food assistance support
- ✚ Family and Community Reintegration: Parenting programs, family reunification services, and peer mentorship
- ✚ Health and Wellness: Physical and mental health services, substance use disorder treatment, and recovery support
- ✚ Legal and Administrative Assistance: Civil and legal aid to address barriers to reentry

Community partnerships provide a vital support network that helps individuals reintegrate into society after incarceration. By offering a wide range of services and resources, these partnerships can significantly reduce recidivism rates and improve the overall well-being of returning citizens.

The Washington State Department of Corrections plans to release a Request for Information (RFI) in early 2025. This RFI will seek proposals from qualified organizations offering community based reentry services to support individuals transitioning back into society. The services will be funded for fiscal year 2026.
