EMPLOYEE OPTICAL PURCHASE PROGRAM

Pursuant to RCW 72.09.100 (2) section (D), Department of Corrections (DOC) employees and their immediate family members are eligible customers of Correctional Industries (CI), and may purchase CI products. DOC employees interested in obtaining a personal eyeglasses for themselves and/or their family members may purchase them through CI Optical. CI Optical cannot accept any personal insurance. There is no limit to the number of pairs of glasses you may purchase.

This catalog shows the frames, lens types and options available. To try on frames, please contact the CI Optical opticians at the email listed under the Order Process section. Opticians can meet with employees at any DOC facility for delivery and fitting of new eyewear. For DOC employee family members, arrangements can be made to meet outside any main facility such as a training room.

Note that final prices may be higher or lower depending on the final option selections. Delivery time may take between three to seven weeks on average from the date the order was paid for.

Reselling of CI products is prohibited. CI reserves the right to refuse any order.

ORDER PROCESS

1. The employee contacts a CI Optical optician via email to request information or to request an appointment for ordering glasses to DOCCIOpticalOptician@doc1.wa.gov.
2. A CI Optical optician will respond to the employee and assist in making the best choices for their needs in both frame and lens selection. The employee must provide a copy of their eyeglass prescription in order to initiate the order. Payment options and payment contact information will be distributed to the employee once an order is taken.
3. The CI Optical optician will submit the lab order and forward the order information to CI Headquarters' accounting office.
4. The employee contacts CI Headquarters' accounting office to pay for the eyeglasses. See **Payment Options**.
5. Upon receipt of payment, CI Headquarters' accounting office will notify CI Optical to complete the order.
6. When the glasses are ready, a CI Optical optician will contact the employee to schedule an appointment to receive their eyewear in person.
7. The employee will come to the appointment and have their glasses fitted by a CI Optical optician.

PAYMENT OPTIONSCredit/Debit Card:

Credit card payments must be paid by phone directly to CI headquarters' accounting office. Call 1-866-580-9933 toll free, Monday - Friday, 8:00 a.m. - 4:00 p.m. Employees must be prepared to verify the following information at the time they make the payment: Name, Location, and Total Amount. This information is provided to the CI Headquarters' accounting office. Optical orders will be processed once a credit/debit card payment has been made.

Check or Money Order:

As an alternative method of payment, checks or money orders are accepted. Check or money order payments must be mailed directly to Correctional Industries, P.O. Box 41116, Olympia, WA, 98504-1116. A twenty-five dollar (\$25) fee shall be applied to all returned checks. Checks or money orders must be accompanied with the following information: Name, Location, and Total Amount. This information is provided to the CI headquarters' accounting office. Optical orders paid by check will be processed once the check has cleared. This can delay an order up to two weeks.

WARRANTY

It is the policy of CI to provide its customers with products and services that conform to their specifications and quality requirements. CI's goal is to achieve a constant high standard of quality while maintaining economical operations.

All CI Optical products are covered by a limited warranty as follows:

- Lenses are warranted for 90 days against manufacturer defect only. Lenses are not warranted against scratches or non-defective breakage.
- CI Optical frames are warranted for 90 days against manufacturer defect only.
- Reworks due to doctor errors are provided at no cost for the first rework.
- Dispenser and lab errors are reworked at no cost.

Progressive non-adapts are warranted for 60 days. If you are unable to adapt to the progressive style lens, CI Optical will allow a one-time remake of the lenses into either single vision, bifocal, or trifocal lenses at no charge. There is no refund of the difference in price paid between the initial progressive order and the style of the remade lenses.

ADJUSTMENTS, REPAIRS AND REPLACEMENTS

Adjustments or repairs:

Following the initial fitting at the dispensing of the eyeglasses, any further adjustment will incur a \$4.00 charge.

Minor repairs such as missing screws or nose pad replacement will also incur a \$4.00 charge. Adjusting the frame after a minor repair is done at no additional cost.

For other issues such as broken frames or lenses not covered under warranty, full fees for replacements will need to be paid before work is started.

Replacing items not under warranty:

If a frame is broken, a complete new pair (frame and lenses) would need to be purchased. This is due to sizing variances in the product.

Replacing old, scratched or damaged lenses:

New lenses may be ordered for CI Optical supplied frames. The frame would need to be turned in at the time the order is placed. CI Optical will not make lenses without the frame being present in the lab and the frame must be in good condition to use.

FRAME PRICING

Tier 1 Frame	\$15.00
Tier 2 Frame	\$30.00
Tier 3 Frame	\$40.00
Tier 4 Frame	\$60.00
Hot Kiss Frame	\$65.00
Betsey Johnson Frame	\$95.00

LENS PRICING

Single Vision Lenses	(per pair)	\$12.00
Bifocal Lenses	(per pair)	\$22.00
Trifocal Lenses	(per pair)	\$32.00
Progressive Lenses	(per pair)	\$107.00

DEFINITIONS

CR39 lenses are the industry standard plastic lenses.

Polycarbonate lenses are thinner and lighter weight than standard plastic. They are impact resistant, scratch resistant, and have UV protection built in. Typically for prescriptions +/- 2.00 or higher.

High index lenses are the thinnest and lightest weight lenses. They also provide UV protection. Typically for prescriptions that are +/- 5.00 or higher.

Photochromic lenses change color going from inside to outside. They help reduce eyestrain and glare in the sun and provide protection from harmful UV rays.

Polarized photochromic lenses are the best option for sun protection. They also change color from inside to outside but get darker than standard photochromic lenses providing better sun protection. The polarization effect provides better clarity by reducing glare helping you see better.

Anti-Reflective (AR) coating helps to reduce glare from all sources of light. This reduces eyestrain and fatigue throughout the day. AR coating improves the clarity of the lens helping you see sharper.

Ultraviolet (UV) coating is basically sunblock for the eyes. It is a clear coating that can be added. Photochromic, polycarbonate and hi index lenses already have UV applied.

Blue light blocking lenses are specifically crafted to block or filter out blue light (natural sunlight, computer screens, tablets, mobile phones, televisions, and overhead lighting).

OPTIONS PRICING

Slab off prism, plastic	(per lens)	\$20.00
Lenticular	(per pair)	\$50.00
