This residential facility is conveniently situated along a main bus line and is close to many local businesses. Ratcliff offers a child visit day and overnight program for mothers and their children. The primary goal of the center is to improve public safety by positively transforming lives and supporting the reentry of incarcerated individuals transitioning back into the community.

Residents who meet the screening criteria may be transferred to HBRRRC 12 months before their earliest release date. The facility is leased and operated by the Washington State Department of Corrections and provides 24/7 safety and security, food services, case management and maintenance.
