

# Corrections' COVID-19 Bulletin

February 14, 2022  
Bulletin 122

## Current Status

The Washington State Department of Corrections' (DOC) Prisons and Work Release facilities are currently mirroring the current increase of COVID-19 cases across the state with 13 currently on outbreak status. DOC's priority is the health and safety of staff and everyone in its care and custody. The department has published updated Safe Start Guidance now on version 7, [available at this link](#). The Safe Start document is an excellent resource to review department guidance on COVID protocols for staff in all divisions such as testing.

DOC has been using the Incarcerated Individual Betterment Fund (IIBF) to do a variety of things for incarcerated individuals to help the time pass more smoothly. Additionally, a [message was sent to incarcerated individuals and family members](#) on February 11, 2022, that provided an update on DOC's response to COVID-19 and comfort items provided through IIBF.

Visitation at prisons and work release facilities continues to be suspended, with a re-evaluation date of March 3, or sooner. [Read more here.](#)

Each prison and work release facility on outbreak status sends out a weekly status update message, that can be viewed on the department's [Significant Events Timeline \(SET\)](#). You can search for information about a specific facility by visiting the SET, hitting ctrl+f, and typing in the acronym of the facility you are interested in.

## Numbers at a Glance

### Average Daily Population

- **12,371** December 2021 Total [Average Daily Population](#) of Incarcerated Individuals for Prison and Work Release Facilities

## Frequently Asked Questions

To review DOC's COVID-19 Frequently Asked Questions – [visit the webpage, here.](#)

## Prison Facilities

Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our [COVID-19 data webpage, available here.](#)
