# Corrections' COVID-19 Bulletin

May 4, 2022 Bulletin 149

#### **Current Status**

The Washington State Department of Corrections (DOC) currently has 1 facility on outbreak status. There were 20 prison and work release facilities on outbreak status on January 24, 2022. DOC's priority is the health and safety of staff and everyone in its care and custody.

DOC facilities and living units that are not on outbreak status are finding ways to safely resume religious and educational programming, visitation, and other activities that are important for an individual's successful reentry to the community. When a facility has a limited area outbreak in a specific living unit, only those living units are impacted, while the remainder of the facility is able to continue normal operations.

DOC announced an update to prison and work release visitation status on February 22, 2022.

Starting the week of May 4, 2022, the COVID-19 Bulletin will move from one time weekly on Wednesdays, to two times a month on the first and third Wednesdays, not to include holidays.

## **Prison Facilities**

Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is in an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our COVID-19 data webpage, available here.
