# Corrections' COVID-19 Bulletin

June 8, 2022 Bulletin 153

## **Current Status**

The Washington State Department of Corrections (DOC) currently has 1 prison facility on facility wide outbreak status and 1 prison facility on limited area outbreak status.

DOC facilities and living units that are not on outbreak status are finding ways to safely participate in religious and educational programming, visitation, and other activities that are important for an individual's successful reentry to the community. When a facility has a limited area outbreak in a specific living unit, only those living units are impacted, while the remainder of the facility is able to continue normal operations.

DOC announced an update to prison and work release visitation status on February 22, 2022.

Incarcerated Individuals vaccinated (at least one dose) 10,870

# **Frequently Asked Questions**

To review DOC's COVID-19 Frequently Asked Questions – visit the webpage, here.

### **Prison Facilities**

Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is in an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our <u>COVID-19 data webpage, available here</u>.
