Superintendent Dan White Opens

The Reginal Care Facility is being deactivated in the Chapel. Restoring Chapel to hold Religious Services again. Rapid Deployment Care facility will be located in the Cedar small recreation yard. The population may have concerns about not enough room in the yard, but there will be. The track along the fence line, which is popular, will be re-routed to a smaller circle but will still be large enough. This is a precautionary step just in case we need to house positive COVID cases for the westside. Things are going great here. We are working on bringing religious volunteers back and contact visiting.
