In Response to this appeal (MCC 20852) I reviewed the submitted material. The publication is a first-person autobiography of gang life. It is full of illegal gang activity and violence conducted by this person on opposing gang members. I agree this person eventually changed their behaviors, but this publication is mainly about the life in the gang and the details surrounding his disregard of the rule of law. Since most of this publication is STG/gang related and contains many references to gang life, including the hatred of opposing gang members (bloods), I do not find it is fitting for the correctional environment. This publication will remain rejected.

This book is rejected for images of children in sexual attire/positions including showing underneath skirt to underwear and full naked child. The writing on the book indicates "school playground," "8th grade" and "junior high" as the setting of the story, no page numbers 6 pages submitted	OVERTURNED: no sexual content	The Publication Committee reviewed this publication on 5/26/22 and overturned the rejection for no sexual content. In response to the facility appeal, I reviewed the submitted materials. First, I will establish if the characters in the publication are minors. The book confirms this takes place on a playground and one of the characters is in junior high. For this reason, I can confirm the characters are minors. Next, I will address the characters and how they are dressed. On the cover a minor female is wearing clothing that can be deemed as sexually suggestive. The clothing shows the entire midsection vertically of the character. Another page shows a nude, minor female. Finally, a drawing focuses up the skirt of a minor female, showing undergarments. These can all be verified as sexually suggestive poses or clothing. For this reason, I overturn the Publication Committee and find this is not appropriate for the correctional environment.

In response to an appeal by the facility, I reviewed this publication and overturn the committee's decision to allow this publication. First, I will address the nudity, exposed buttocks, female genitals, and bare breasts in the submitted materials. A nude female is receiving a massage in the submitted materials. In the supporting verbiage there is content about sexual arousal, sexual energy, nipple stimulation being compared to the polarity of the male penis. The poles of male and female come together during sex acts. Since these photos go hand in hand with sexual pleasure and unity, I find this publication does violate WAC 137-48-020 and will be rejected.

50117	2023	Disgae Art	Book	Yes	Hideki Ishikawa		Disgaea Official Illustration Collection	2011	2/14/2023	17--Sexually explicit including drawing material to look like minors, buttocks, nudity.	Upheld	The Publication Committee reviewed this publication on 2/14/23 and upheld the rejection. In response to your appeal, I will review this publication. The first reason you noted was artistic drawings are allowed. DOC 450.100 MAIL FOR INDIVIDUALS IN PRISON XI H 4 (c) states a publication "may be approved" it does not state it will be approved. The content will decide if it will be considered art. Next, I will address the depiction of minors in sexually suggestive settings/poses/attire. The characters in this book have a minor like appearance ad are in sexually suggestive attire and situations. Next, you claim the drawings are not intended for sexual gratification. The drawings contain exposed buttocks of what I have deemed to be minors in sexually suggestive attire and poses. For these reasons, I am upholding the committee's decision and this publication will not be allowed.

These drawings can be considered art and not necessarily intended for sexual gratification. However, some photos contain exposed buttocks in whole or part and are clearly intended for sexual gratification due to the pose of the females on page 77.

Publication doesn't have any page numbers and will be rejected for reason #17.	Uphold	The Publication Committee reviewed this publication (WSP G39899) on 11/14/23 and concurred with the rejection. In response to this appeal (WSP G39899) I reviewed the submitted materials and concur with the committee. This publication will remain rejected. First, I will address this is marketed as an art book. DOC 450.100 H (4) (c) MAIL FOR INDIVIDUALS IN PRISON states the committee may approve a publication for artistic, health/medical, and educational purposes. The committee chose not to utilize that power with this publication. In this case, I agree with the committee. This publication is marketed as an art book but the models inside are nude and posed in a fashion to be sexually suggestive, exposing the entire vaginal area, in one photo the models' legs are spread apart showing the vaginal entry. I do find some of these poses were sexual in nature even if the overall publication was artistic. I find the legitimate penological interest to keep this publication out of the population outweighs any benefits it would have.

Verbiage stated this story takes place during summer vacation and characters are drawn to appear to be minors. For these reasons, I can conclude the characters in this publication are minors. Content in this publication shows minor characters in sexually suggestive settings, poses, and attire. One minor character is nude, another is in a sex act, and multiple places show minors in undergarments in sexually suggestive poses. A parental advisory is present on the front cover stating, "explicit content." I find this publication was intended for sexual gratification and remains rejected.
