

About our PATIENT CENTERED MEDICAL HOME

Introduction to PCMH

The Patient Centered Medical Home (PCMH) is a new way to care for patients. We want each patient to be healthy and feel good about their care. PCMH is about working together, safety, education, and kindness.

PCMH Principles

Patient-Centered

Listening to you so
you get the care
you need

Quality Care

Helping you feel
better and stay
healthy

Community of Care

Creating a support team
that includes your
selected friends and
family

What to Expect During Your Visit

You might talk to more than one person during your visit. Each team member in Health Services plays an important role. They work together to make sure you get the best care.

If you have questions, please ask us!
