WELCOME TO THE WADOC READING COMMUNITY!

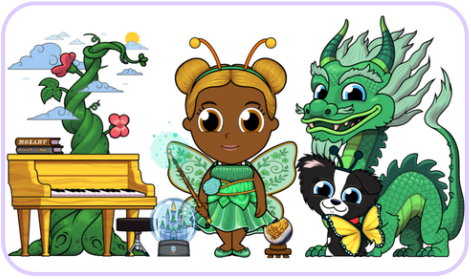
Through this program, receive free children's books you can keep! Discover your next favorite read, build a home library filled with books you love, and make reading together part of your family's story.

Step 1: Building a Bookmoji

Scan the QR code or go to kids.bookelicious.com to get started. Your Case Manager will provide the login information you need. Then, choose pets and accessories that reflect your interests to build your Bookmoji and get personalized book recommendations.

Step 2: Browse for books

Once you've saved your Bookmoji, browse your book recommendations and explore the website to discover new books that interest you.



Step 3: Request the Book

Once you've found the perfect book, let your Case Manager know which title you would like. They'll submit the request for you, and your free book will be sent to you to keep!

Step 4: Read and enjoy

Once your book is delivered, add it to your home library and enjoy reading it together!

Step 5: Repeat!
